January 28th, 1871.

James Pollock, Esq.
Director U. S. Mint,
Philadelphia.

Sir:

The accounts of Horatio G. Kern
and others have been adjusted at the Treasury;
and drafts in their favor will, in due course of
business, be issued to them, respectively; and
forwarded to your care, for the following
amounts found due, viz:

Horatio G. Kern	\$ 8.00
Savage & Stewart	114.19
Charles J. Boulter	27.27
Meng & Gerlach	81.50
Amounting, in the aggregate, to	<u>\$ 230.96</u>

Very Respectfully
Wm. Humphreys Jones.

Hon James Pollock
Director of the Mint
Sir

I take the liberty of begging you to furnish me with the following items:

1. Gold and silver of native production, ^{deposited} coined at the Mint and branches, during the calendar years 1867, 1868, 1869 and 1870. Each year separately and gold and silver separately, and deposits and coinage separately.
2. Foreign gold and silver (separately) deposited at the mints during the same periods.
3. Jeweller's bullion (gold and silver separately) for the same periods, deposited.
4. If you can spare me copies of the reports of the Director of the Mint for 1866, 1867 and 1868, I should be deeply obliged.

The reason of this application is, that I cannot so well apply the published reports to my work, as if I had the figures for the calendar years.

Very Respectfully

Your Obedient Servant

R. W. Raymond

AN ARGUMENT

ADDRESSED TO THE

DIRECTOR of the U. S. MINT,

RELATIVE TO

Unparted Silver Bar Charges

OF THE

CARSON BRANCH MINT

FROM THE ASSAYERS OF

Storey and Lyon Counties,

NEVADA.

ANALYSIS.

1. Recitation of Carson Mint Charges, showing that Private Assayers cannot reduce their Rates to correspond and compete.
2. From the low Rates authorized, it is argued that Gold Rates have been only *temporarily* authorized, till the subject could be fully considered, and appropriate Cost Rates determined.
3. Savage Co's Assay Office Report of Actual Costs, showing it to be a good basis for estimating Carson Rates.
4. Its defects for this purpose pointed out.
5. Silver Rates for Carson, inferred from Gold Rates at Denver, to be proper at about $\frac{3}{4}$ ths of 1 per cent.
6. Same result inferred from California Rates, established by long and active competition among California Assayers.
7. The policy most helpful to costs of Coinage at the Mint, and most serviceable to the community, shown to be that of bringing the Mint into simple *Competition* with Private Assayers, at cost rates, which are shown to be a shade less than Private Assaying Rates.

VIRGINIA, NEV., January 5, 1871.

HON. JAS POLLOCK,

Director of U. S. Mint,

Philadelphia :

SIR:—The Carson Branch Mint has begun to make unparted Silver bars, charging therefor one-fourth per cent. of value.

As that rate is less than the necessary cost, it is impossible for private assayers to reduce their charges to correspond. Suspecting that there might be some mistake as to the facts or authority in the case, one of our number visited the Carson Mint to ascertain. Upon conference with Supt. Rice, he was informed that his (the Superintendent's) authority was your own, obtained on the recommendation of Dr. Linderman, and that you had authorized even as small a charge as $\frac{1}{8}$ th of 1 per cent., but that he had on his own judgment increased the rate to $\frac{1}{4}$ th per cent.

One-eighth per cent. being the Denver charge, suggests that you intended that rate to be the Carson Mint's charge for unparted *Gold* bars, or else that this rate may have been ordained for both gold and silver bars, only as a temporary measure, until you could gain time or satisfactory data for that specific consideration of the subject of unparted *Silver* bars, needful to determine more permanent rates of charge for that distinct and (to the Mint) new class of work, conformed to the requirements of Law.

Section 7 of Act of March 3d, 1853 (a deficiency appropriation bill) is the latest enactment pertinent to this subject. It ordains that the actual cost of the operations involved, even including the use of the machinery of the Mint, shall be covered by the charges. The text is "When Gold or Silver shall be cast into
"bars or ingots, or formed into disks at the Mint of the United
"States, or at any of the Branches thereof, or at any Assay
"Office of the United States, the charge for refining, casting,
"or forming said bars, ingots or disks, shall be equal to, but
"not exceed the actual cost of the operation[s], including Labor,
"Wastage, Use of Machinery, Materials, &c.,* to be regulated
"from time to time by the Secretary of the Treasury." The evident *spirit* of the enactment is, that *all** the actual costs involved in the mint manufacture of ingots or disks, or of bars either (and whether refined by parting, or only melted and cast) shall be fully charged for.

*Evidenced by the insertion of "&c." in the wording of the law.

The foregoing statement will possess for you an especial value, because the *amount* of business done, to a certain extent bears upon the *per cent.* of cost for doing it; and the amount done by the Savage Mining Co. (working for itself and the Gould and Curry Co.) is not far from the amount of work (of this kind) which the Mint may be expected to get, unless the absence of any law allowing the Government to guarantee the stamped values, shall cause bullion dealers to distinguish adversely in discounts (when buying) between the Carson Mint bars and bars which *are* guaranteed; being a *pretext* for depreciation, it becomes a temptation. The amount of work which the Mint will do, in all probability will depend less on the charges* you may fix (unless they shall *exceed* the rates of private assayers) than on *convenience* to the Mines and Mills. The Mint is the most convenient Assay Office to the mills at Empire City (near Carson), and the product of those mills on the grade of ore they only can henceforth be supplied with, is not far from the amount done by the Savage Office as set forth in their statement.

Though in the foregoing report the national license of \$500 (imposed on private assayers hitherto in lieu of a manufacturer's tax on products) appears as an item of cost which the Mint does not pay, yet that item is many times over offset by the *omission* of the much more important item of rent, paid by private assayers, and which corresponds with the item "use of machinery, &c.," required by law to be regarded as one of the Mint costs of the unparted bar business.† Besides that, mechanics' charges for repairs to tools, or for replacing them, and for cutting into crucible compass bullion melted by unskillful retorters, &c., amount to a very considerable item of actual cost, and should be reckoned in. Yet it has not been, because the Savage Co. (and the Mint also) has its own mechanics who do such work, and it therefore does not *seem* to be what it really is, one cost of the unparted bar business.

Furthermore, the Savage Statement assumes that that Company has availed itself of one most important economy, *possible* to a company doing its own assaying, and *not* possible either in the Mint or in any public assay office conducted by private parties—viz: by allowing the bullion to accumulate until there is

*Cost will be as freely paid as *less* than cost.

†By "Rent" we do not mean, rent of *premises* which we occupy, but the *additional* rent we should be obliged to pay if our several landlords had built our furnaces and fixtures, and had furnished us with tools and implements. *Such* rent corresponds with the prescribed Government charge for "use of machinery, &c."

enough for a full day's work in melting it, the assayer is able to avoid hiring a skilled melter (current wages \$150 per month) by attending to it himself, and hiring *for such days only* simply a laborer to assist in firing and heavy lifts. See item marked "Salary of Assayer," and of "Assistant," in the foregoing statement.

Yet, notwithstanding the fact that the estimate is based upon as large a business as \$780,000 a year, with rent (or allowance for *use*) of furnaces, fixtures, tools, &c., left out, with melter's wages saved (except \$265 out of \$1,800) and with every point strained for economy, still the rate necessary to cover expenses is shown to be three-fifths of one per cent. If melters' wages had *not* been saved, the costs would have been *four-fifths* of one per cent., and if a proper rent for furnaces, fixtures and implements (excluding from view rent of premises) had been added, as for the purposes of *our* estimate must be done, even after deducting assayer's license, the rate would have been not less than one full per centum.

That the charges suggested in our letter to the Secretary of the Treasury (and recited in this letter) are approximately correct, if not lower than they should be, may be *reasoned* from the charges of the Denver Mint. It is proper to assume that when they were established at $\frac{1}{3}$ th per cent., it was after careful inquiry. That they are continued at that rate is evidence that experience has shown they are just about sufficient to cover costs. If such is the case when the bulk of the bullion there is say \$16.00 per oz., provided the cost of labor and materials there and here are equal, the charges at Carson on bullion containing no base metal, and worth \$2.00 per oz., *must* be eight times as great a *per cent.*, or else the same amount in dollars and cents would not be received by the Government for melting and assaying an equal number of ounces at the different places. As this point is the pith of the whole question, we illustrate by an assumed case or two.

1,000 ozs. melted and assayed at Denver would yield \$16,000. Charges at $\frac{1}{3}$ th per cent. would be \$20.

1,000 ozs. melted and assayed at Carson would be worth \$2,000. In order to obtain the Denver *dollars* for this equal number of ounces, it is manifest the charge at Carson would need to be one per cent. Consequently, if it cost precisely as much to melt 1,000 ozs. of silver as 1,000 ozs. of gold, the rates for silver at Carson, in order to *correspond* with the rates for gold at Den-

ver, would need to be eight times as great a per cent. But as it costs somewhat less to melt 1,000 ozs. of Silver than 1,000 ozs. of Gold, the rates stated in per cent. do *not* need to be eight times as great. The actual current rates of San Francisco (and Virginia) for 1,000 ozs. of Silver Bullion, 37 Gold fine, and 960 Silver fine, amount to \$14.41 against \$20 for Gold Bullion.

Again—Let us compare \$10,000 melted and assayed at Denver and Carson—that is, equal *values* instead of equal weights. The weight at Denver would be 625 ozs.; at Carson 5,000 ozs. Owing to difference in the *densities* of the metals, the Silver would occupy not less than twelve times as much *space* as the Gold. If the Gold filled any given size of crucible, it would require *twelve* of such crucibles to hold the Silver. Though each of the twelve would melt with about $\frac{1}{3}$ ths, or $\frac{5}{11}$ ths, the Coal required for the Gold, the twelve would take five or six times as much Coal to melt as the Gold. The wear and tear of crucibles, and the fluxes consumed, would be just twelve times as great. In practice, expenses of fuel, fluxes and crucibles would be somewhat lessened by using larger crucibles for the Silver, but the supposed case makes it manifest that the costs of crucibles, fuel and fluxes, are vastly greater for melting \$10,000 worth of \$2.00 per oz. Silver, than the same value in \$16.00 per oz. Gold. If this is plain *without* considering the costs of Labor, when that item is added, the matter becomes glaringly apparent. Its importance demands for it a special paragraph of consideration.

In estimates of cost, "Labor" must be deemed the *wages* of Labor—each *hour* of the laborer representing so much money or "Cost." If more *time* is consumed in melting \$10,000 worth of Silver than Gold, that time is *Cost*. More time is consumed. It is as the time required to melt the *twelve* crucibles of metal, compares with the time of melting the one, in the case before supposed. The greater *time* required for melting Silver than Gold, makes Labor as much *relatively* greater in the Cost of the Silver unparted bar business as fuel, and as much *absolutely* greater, as the cost of Labor exceeds the cost of coal.

If, therefore, the rates *in per cent.* at Denver and Carson are the same, irrespective of whether the bullion be Silver or Gold, the law must be disregarded either at one place or the other. Either the Denver rates must *more* than cover costs, or else the Carson rates must *less* than cover them. The only possible way to cause an actual correspondence with each other, is either to abandon percentage rates altogether and charge specifically *per*

ounce, or else to make an adequately higher percentage where the lower per ounce prevails.

In making unparted Gold bars, the private assayers of California ignore the Silver value contained both in stamping and in charges. In consequence the owners receive a higher price for the bars (on sale) than if the Silver were stamped. The charge at San Francisco for such bars is the same as the Government rate at Denver— $\frac{1}{8}$ th of 1 per cent. When those same assayers make unparted *Silver* bars (those whose Gold fineness is less than the Silver fineness) they stamp the value of *both* Gold and Silver, and each separately. While they retain the $\frac{1}{8}$ th per cent. of Gold value as their charge for the Gold assay (but never collect less than \$2.00 for Gold on each bar) they add to it 1 per cent. of the Silver value as the charge for the Silver assay. This is a practical recognition of the substantial truth of the foregoing views, but it indicates that the disproportion in Cost between Silver and Gold working, is proven by practice to be *greater* than roughly estimated in this letter.

The current rates for assaying at Virginia are the same as at San Francisco.

When you are determining the charges in question, if instead of basing them on the intrinsic costs herein submitted, you should write to the Carson Mint for an *estimate*, and then base your decision on their *judgment* merely, it is more than likely that in forming their opinion of costs, the *labor* involved in melting and assaying would both be left out of the account, on the ground that a deposit melter and a complete assay department are already and of necessity provided to attend to bullion deposited for *coinage*, as well as for the domestic work of the Mint. In this view of the case, the labor involved in melting and assaying a *moderate* amount of unparted bullion is in truth no *extra* cost to the Government; and at first sight it *would* seem as if its value ought to be excluded from consideration in determining unparted bar charges—and therefore that the only items which *should* be charged for are, the extra coal, crucibles, fluxes, moulds, tools, &c., together with whatever *extra* labor the business might require.

To this it may be replied, that the wording of the law does not admit of that view of the case. The law reads, “the *actual* costs of the operations, including labor, wastage, use of machinery, materials, &c,” shall be covered by the charges. It does *not* say, “the *extra* costs of labor, use of facilities, materials,” &c., shall be charged.

It may be further replied—should the deposits for *Coinage* increase, as it is probable they will with the new bullion fund, (and with such increase the *domestic* work of the institution must also grow,) the present *spare* labor of the Mint will no longer exist; and the force alike of the Melting room and Assay Department, will have to be augmented, in order to prosecute the unparted bar business. In such an event, you would again be troubled with a revision of charges, in order to prevent a violation of Law. If the “actual” cost of Labor, as well as other required expenses, shall be ordained from the beginning, no such revision will be needful until the prevailing price of Labor in this country shall materially decline.

Besides, the view under consideration, is utterly at war with the general policy of our laws. That policy may be stated as one of non-interference with legitimate, private metallurgical enterprise (especially when competitive,) but on the contrary, one of protection and encouragement. It is apparent even about coining—also about private refining, and equally so about the manufacture of unparted bars. The Government (and properly, except in the matter of tokens,) does not forbid even *imitations* of the national coinage, so long as those imitations are not counterfeits, but leaves private gold coinage free to command its commercial value, when exported from its point of manufacture and currency, to localities where it is not current. This may not be wise, but it is both liberal and actual. In the same broad and paternal spirit, a law still stands in force, which, in *terms*, aims at developing the *refining* of bullion by private parties, and in full harmony with this general spirit, are the terms of the law first herein cited. Its *date* (1853) interprets it. The San Francisco Mint was opened just about that time. Private assay offices were then there established. As if fearing that injustice might be done by unduly low rates at the new Mint, to parties already engaged in the unparted bar business, the actual costs to the Mint of the operations involved, were ordained by the Government, as a rule to guide the Secretary of the Treasury in regulating the charges. The Carson Mint now bears the same relation to the assayers of Virginia and vicinity, that the San Francisco Mint then bore to the assayers of San Francisco, and the law then passed is apposite now. It is *properly* considerate of the interests of bullion producers, and forbids Mint regulations, which would *drive* them to the doors of private assayers; but it is *equally* just to assayers themselves, for it also forbids

Mint regulations which tend to compel them to *close* their doors, sink their investments, and have the experience of a lifetime rendered valuelss to them and theirs. Simple in character as it is, it honors the American Government by its regal spirit. It even now needs but a single word from an oath-bound officer, to make its benignity as vital in Nevada, as originally in California. We believe that you will speak that word, and prevent a great wrong. We believe that should Washington hesitate, you will urge it; for should the Treasury Department decide upon a continuance of rates which practically *do* bestow as a *gratuity* the present spare Labor of the Branch Mint upon the unparted bar business, the recommendation of the Special Agent of the Treasury Department for beginning this business at the Carson Branch, will be robbed completely of its dignity and business breadth; and will place him in a seeming attitude of unprovoked hostility towards a legitimate private pursuit, most unjust to him; for we are persuaded that he has no more recommended this manufacture of bars in *order* to injure us, than that you approved of the proposition with any such aim or hostile animus. We are confident that in his case, as with yourself, the intentions of the measure were, to afford the bullion producers of this vicinity a properly cheap *opportunity* of having their bullion valued by disinterested parties, while at the same time you desired that to the extent that they might avail themselves of that opportunity, so doing might lessen the prodigious cost *per dollar coined*, of the *coinage* of the Branch, by relieving its *general* operations of the fair *proportion* of the actual costs of melting and assaying properly belonging to the unparted bar business. This will be impossible, unless the charges are raised to at least three-fifths or four-fifths of one per cent.

In considering this subject, there is one practical feature of the case which merits your attention, viz: *Base* bullion—a very large and increasing amount of such bullion, produced from slimes and tailings, and a less amount from base ore, is extracted in this vicinity. Much of it does not exceed 300 fine, in gold and silver together. By far the greater portion is alloyed with Copper, but some has Lead. It is exceedingly difficult to make a creditable bar of the coppery bullion. Moreover, it frequently requires remelting after casting, owing to a peculiar spongy *swelling* or *foaming*, which occurs in cooling, and often causes the metal to overflow the mould, the overflow sometimes being of a widely different quality from that which hardens in the

mould. This fact of itself makes it a costly class of bullion to manufacture, but a more important consideration tending in the same direction, is the fact that a thousand-ounce bar contains from 400 to 600 ounces of copper, which, of course, requires crucible room, fuel and time, (labor) to melt, and yet which bears no value whatever upon the face of the bar. The ordinary charges, if continued purely *ad valorem*, are inadequate to cover cost. If, however, one cent per ounce of gross weight before melting, were ordained for *all* bullion intended for unparted bars, (abolishing the *per cent.* charge on silver contained,) in addition to one-fourth *per cent.* of gold value, a fair revenue, *and a higher PER CENT. of value* would be derived from such work, without *seeming* to make any special charge for base bullion.

Assuming that you will make the Mint charges *somewhat* less than our own, we submit that the adoption of the above tariff would effect the end, very closely approximate the requirements of the law, and by merely bringing the Mint into useful *competition* with assayers already established, it will cease to cause us to appear almost as plunderous extortioners in the eye of a community whose respect we value; and we, therefore, very earnestly and respectfully urge its adoption, or some better equivalent regulation, at the earliest practicable moment, apprising us of the same.

KITTATINNY HOUSE, DELAWARE WATER GAP, PA.

Jan'y 5th 1871

Dear Sir:

Will you do me the favor
of informing me where the principal
Amount of Silver Ore is smelted in
our Country, or do we send it abroad
(as I have been informed) to Wales?

Is there works for smelting in any of
the Eastern cities?

Very respectfully Yours

L. W. Brouhead

Mrs. James Pottock

L. W. Brodhead
Delaware Water Gap.

Where is the Silver
or smelted in this
Country - and how
much of it goes to waste?

Dear Sir
A person

here - a saloon keeper - is dealing out change
to purchasers. Gives Gold half dollars.

Are these coins legal - are they coined
under any authority of law? and have
they any real value.

By answering the above questions
you will greatly oblige
Yours Truly

James P. Clemens

Sir,
Your favor of the 12th is just
received and we are really sorry
that you should have so much trou-
ble about this Box of Cuts -

The Box was ~~with~~ about
16 in square and Iron Bored
Only Seven Bags we would say men
and one small one only \$14.25. was
Cotton and formerly contained Linc
Wads and marked 12. the Box
was not full but a Board was
nailed on the top of the Bags to keep
them from shifting. - the Box

was marked we think in the Upper
left hand corner as copy 112. or -

trusting that this explanation
of the Box will be satisfactory and
again apologizing for the trouble
it has caused you

We are

Gentl.

Very respectfully yours

Wm Lloyd Garrison

Rec Mch 17/71

Rec^d Mch 24/71

U. S. Assay Office
New York March 16th 1871

Thos C Acton Esq
Superintendent
Dear Sir

The letter of the Director of the Mint of 10th inst. Calling attention to an enclosed letter from Prof. Booth "complaining" of the "deficient amount of fine silver received" and the "presence of antimony and sulphur" in the invoices of silver bullion from this office, says that "By due care all this can be avoided, and I earnestly request that you will give the matter your prompt attention."

Although justice to ourselves might require it, I beg leave to say that the following statement is only made in response to your requisition.

Having always been careful to obey the instructions of the Director, and watchful to avoid giving cause in any way for complaint, we have hitherto borne quietly the unjust imputations of Prof Booth.

On May 14th 1869 he complained officially of some fine gold bars on this wise; "Altho. the bars showed a good fineness say 997 + 997½, yet the 2½ to 3 in was tin and lead" - If he had said they contained a trace of tin and lead, we would probably have made no examination, but accepted it as correct, coming from a brother officer; - the inherent improbability of the statement, however, was so great that, having a bar of the 997 melt out

hand, our Assayer (J. Torrey) and Assistant Assayer (Mr Schultz) made an examination of it and were unable to detect even a trace of tin or lead, while they obtained nearly 3 m of silver.

There is no evidence on our records of any necessity for a toughening charge from "the presence of Antimony and Sulphur" or for any other reason, in the Cases Specially Mentioned in this last Complaint; although we do not doubt that deposits justly liable to a charge, notwithstanding the exercise of the greatest care by an Assayer, may sometimes escape it; but that is one of the ordinary Contingencies of a large business which is not a reasonable subject of Complaint.

However, as Prof Booth says that the toughening of these Melts at the Mint "has Cost the Government a good round sum of money" while the same operation is performed here at but a trifling cost, I hope the matter may be so arranged in the future, that any objectionable metal may be returned to us. The Cost of transportation will form (probably) but a small percentage of the saving to the Government in the difference between the Cost of toughening here and at the Mint.

As to the "deficient amount of fine silver", it is evident to any one understanding the business that "Complaining" cannot remedy it. Owners of bullion, or their agents, deposit large amounts of silver below standard fineness, asking for silver dollars and small coin. The law does not allow us to make these, but requires us to transmit such deposits to the Mint. We have repeatedly suggested to the Mint officers

the propriety of a Charge for Refining the Silver termed "base" by Prof Booth (below standard and over 750 m) to bring it up to standard fineness, - just as is done for silver under 750 m, and always when fine bars are asked for; - but they have neglected it. As the Mint receives the only Charge (Seignorage), and as refining it here would subject us to loss in taking out the Copper alloy, and, likewise, the Mint, in replacing it, we simply transfer such deposits to the Mint in order to get Coin for our depositors, as the law directs.

But the Director has given us instructions to send fine silver to bring such deposits up to standard "if possible"; - these instructions have been complied with - Indeed, an investigation of the Records will show that we have almost always sent the fine silver about the same time (or before). Recently, however, in order to meet as far as possible a heavy demand for Coin, coming when the operations of this department were stopped by reason of repairs of boilers &c, our Treasurer forwarded such silver deposits suitable for Coinage as were on hand, without waiting for a supply of fine silver. Though not required by any instructions to do so, he explained why fine silver was not sent and said he would forward it as soon as received.

Could more be asked of him? In view of the ~~hundreds~~ thousands of ounces of fine silver thus furnished the Mint, for which our only Compensation has been Complaints, it is inconceivable how even Prof Booth could suggest the Charge against us of "ingenerously" transferring "loss to another department so as to lighten their own account of wastage".

There is another strange statement in the letter, viz "May

I remark, that it appears as if the Contingency had happened, which we urged against the reduction of Charges for refining Silver, urged by the M. & R. of the Assay Office, and that the amount of gold to be refined by them was insufficient to supply all the fine Silver needed to bring up their base Silver to standard" -

The relation which the amount of gold deposits bears to that of silver deposits is fluctuating; and if Prof Booth spoke of it at any time, he only alluded to what ~~was~~ necessarily well known here; but it is difficult to see any connection between that and the subjects of Complaint. On Dec 30th 1870, I recommended a reduction of the charges to depositors here, in accordance with the law which says they shall not exceed the actual cost of the operations; - if he means to intimate that that recommendation had such a slight basis as the changeable preponderance of one class of deposits over another, it is but an additional evidence of his facility in reaching wrong conclusions - Such care was exercised not to reduce the charges too low, that truth compelled the statement that the proposed rates were "possibly, still too high." If the fact that the separation of gold & silver bullion, and the refining of silver bullion had always constituted but one operation here, should be regarded, one Cent per ounce (instead of $2\frac{1}{2}$ and $1\frac{1}{2}$) would be the highest charge needed for either class of deposits, to cover the cost.

Such charges against the officers of this institution as are suggested in the language "I can only assert, that whether these substances are present from lack of skill, or from indifference, or from a disregard of your instructions and of the M. & R.'s promises &c" ought not to be lightly made. Having shown them to be without cause, I can only add that as in the past, so in the future, the efforts of this department will be strenuously exerted to avoid giving any possible ground of Complaint - Respectfully Yours

Phil^a Apl. 3^d. 1871

Hon. J. A. Fallox

My dear Sir

My Heavenly Father
has kindly endowed me with a fair amt.
of mechanical genius and I trust I have
been using it, as I think ~~He~~ would have
me, inventing & completing a steam engine
governor and have succeeded so well that
all the mechanics & others who have seen,
examined & tested it have pronounced
it far superior to any other - It's qualities
for which it is guaranteed are, 1st It
will govern or regulate an engine better
than any other. 2^d it is a safety governor
as should the belt run off or break
it will not permit the engine to
"run away" as it will immediately check
the steam - 3^d The valve being perfectly
balanced (as is the case with no other) the
wear of the parts is probably not $\frac{1}{4}$ as
much as in other governors - 4th So far
as can be judged it is believed that by

the regularity in which the steam is allowed to reach the engine (only just so much as is required to do the work) the price of the governor would be saved in less than one year in the saving of coal —

My excuse for thus trespassing on your time, is — My friend Mr. Saml. Greene has been for some time talking with the Engineer at the Mint about putting one of my governors on the Engine there — The price, finished as it would necessarily have to be to correspond with the Engine, would be less than \$150. or ^{only} _{do} much above \$80. (the regular list price) as the finish would cost — I am now informed that the Shive Governor Company, hearing of this have been to the Engineer and offered to put one of their governors for \$50. (simply to head off mine) — a less price than the cost to finish & polish — Now I cannot say that they are to pay the Engineer a Commission also, but rumor is strong that way too — Now I shall not offer to put my governor on a par with theirs or meet them in opposition as

to price but what I would be glad
to do is to put ~~an~~ one of mine at
the mint with the above guaranties
& let it be fully tested to your entire
satisfaction and any length of time you
may wish, and if not satisfactory
take it off again with no expense to
you or the government whatever - if
satisfactory, the charge to be the regular
price for the governm + cost of finish
& putting on which shall all be
estimated beforehand if desired -
should be glad to have you send a
competent party to have them examined
where they are in use, of which I will
furnish a list - For the security
of my motives in business I refer
you to Dr Alex. Reed of Central Church
An order to Mr Green will be same
as if given to me -

Respectfully &c
D. Lynde

From

J. D. Lynde,
recommending "New
Governor for Steam
Engines &c

April 3/1871

Recd April 4/71

Hon. A. A. Pollock

Dear Sir

It affords me a Chance from the Course you have pursued in this affair, And also a Pleasure to be able to refute all the Charges that Mr Synde has made, In relation to introducing his Steam Gov. on our Engines in this institution

I have not the pleasure of the Acquaintance of the Mr Green he speaks of in his letter, never had any Conversation with him to my Knowledge, Nor do I know Mr Synde

If it is your Pleasure to place one of his Gov. on our Engines, It will be my duty to give it a fair test. I have never

seen his Gov- Therefore can give
you no information about the
same, My predecessor made
considerable money in this insti-
tution in the way he speaks of
but I have it yet to adopt

Very Respect--Yours &c

Rec^d April 19, 1871

Boston April 15 1871

Dear Sir:-

I have this day sent to You per Adams Express for redemption \$220⁰⁰ in cents as follows:-

\$80⁰⁰ in nickel cents

\$80⁰⁰ in bronze cents

and 60⁰⁰ in do two cents pieces

I wish to have the return transfer draft drawn on the U.S. Ass't. Treas. in Boston

I am obliged to take in my business large sums in cents, and must often pay discounts to exchange them for paper money. Redemption, however, as I need all my money in my business, can only be useful to me, if there are no long delays connected therewith. Therefor please inform me how long it usually takes to obtain a return draft for cents sent to be redeemed.

Yours Respectfully,

E. Lissner.

Which it is mutually agreed is to be forwarded to our Agency nearest or most convenient to destination only, and there delivered to other parties to complete the transportation.

It is part of the consideration of this contract, and it is agreed, that the said Express Company are Forwarders only, and are not to be held liable or responsible for any loss or damage to said property while being conveyed by the Carriers to whom the same may be by said Express Company entrusted, or arising from the dangers of Railroads, Ocean or River Navigation, Steam, Fire in Stores, Depots, or in Transit, Leakage, Breakage, or from any cause whatever, unless, in every case, the same be proved to have occurred from the fraud or gross negligence of said Express Company or their servants; nor, in any event, shall the holder hereof demand beyond the sum of Fifty Dollars, at which the article forwarded is hereby valued, unless otherwise herein expressed, or unless specially insured by them, and so specified in this receipt, which insurance shall constitute the limit of the liability of the Adams Express Company. And if the same is entrusted or delivered to any other Express Company or Agent, (which said Adams Express Company are hereby authorized to do,) such Company or person so selected shall be regarded exclusively as the agent of the shipper or owner, and as such alone liable, and the Adams Express Company shall not be, in any event, responsible for the negligence or non-performance of any such Company or person, and the shipper and owner hereby severally agree that all the stipulations and conditions in this receipt contained, shall extend to and inure to the benefit of each and every Company or person to whom the Adams Express Company may entrust or deliver the above described property for transportation, and shall define and limit the liability thereof of such other Company or person. In no event shall the Adams Express Company be liable for any loss or damage, unless the claim therefor shall be presented to them in writing at this office, within thirty days after this date, in a statement to which this receipt shall be annexed. All articles of Glass, or contained in Glass, or any of a fragile nature, will be taken at Shipper's risk only, and the shipper agrees that the Company shall not be held responsible for any injury by breakage or otherwise, nor for damage to goods not properly packed and secured for transportation. It is further agreed, that said Company shall not, in any event, be liable for any loss, damage or detention caused by the acts of God, Civil or Military Authority, or by Rebellion, Piracy, Insurrection or Riot, or the dangers incident to a time of war, or by any riotous or armed assemblage. If any sum of money, besides the charge for transportation, is to be collected from the consignee on delivery of the above described property, and the same is not paid within thirty days from the date hereof, the shipper agrees that this Company may return said property to him after the expiration of that time, subject to the conditions of this receipt, and that he will pay the charges for transportation both ways, and that the liability of this Company for such property while in its possession for the purpose of making such collection, shall be that of Warehousemen only.

Dear Sir.

For the purpose of publication of a little volume upon the different coinage in the world published by my brother in Germany I respectfully take the liberty to ask you for an answer upon the following questions, for which I would consider myself under great obligation.

I have your annual report of June 30. 1870. and annual assays of 1868 but they do not contain the proper information.

Q^y. 1st. What is the proportion of silver & copper in the alloy for gold coins.

Q^y. 2^d. What is the proportion of copper & nickel in the nickel copper cents, and what

denominations are compound
of such. Which of it are in use
now and which are redeemed.

Qu. 3^d. Are the five cent Nickel
pure nickel.

Qu. 4th What is the composition
of bronze coins, and what
denominations are in use
now and which are redeemed.

Qu. 5th Are there any other compo-
sitions in use except

Copper nickel or bronze coins,
for example are any of the
silver coins alloyed by
nickel.

I hope you will excuse me as
a stranger to impose upon your
valuable time so much, but
I am anxious to give my
brother such official information
as ought to be embodied in such
a publication of that kind.

I am sure it will give my
brother great pleasure to
forward you a copy of his
publication

An early answer would greatly
oblige and obligate me to any
reciprocity if within my
power

Whereas I, Francis Bowyer Miller of New South Wales did obtain Letters Patent of the United States of America for a process of treating Gold Bullion, which Letters Patent are numbered 75289, and are dated the Tenth day of March A. D. 1868. Now know all men by these presents that I the said Francis Bowyer Miller have made constituted and appointed and do make constitute and appoint Edward Sabine Renwick of the City of New York in the said United States my true and lawful attorney for me and in my name to grant one or more licenses to use the invention recited in the said Letters Patent upon such terms and conditions as may by him be deemed expedient; to sell patent rights to use the said invention on such terms and conditions as may by him be deemed expedient; to sell assign and transfer the entire right title and interest in said letters patent and invention upon such terms and

conditions as may by him be deemed expedient; to execute and deliver all deeds or other instruments in writing that may be necessary to the performance of the aforesaid acts; Also to receive and receipt for all sums of money or other valuable considerations that may be receivable from or by reason of the use and sale of said invention and said letters patent in the United States; and generally to do and perform all such acts matters and things as my said attorney shall deem necessary or expedient for the complete and effectual execution of the authority herein before granted as fully as I might and could do if I were personally present; hereby ratifying and confirming all the acts of my said attorney done by virtue and in pursuance of these presents.

In testimony whereof I have herewith set my hand and seal this Twenty eighth day of February

STATEMENT OF DEPOSITS

AT THE

United States Assay Office,

NEW-YORK,

For the *Fiscal Year* ending

June 30, 1871.

Rec'd July 31. 1871.

J. B. McFADDEN,
Attorney at Law,

Shelbyville, Ind., May 19, 1871

To the Director of the U. S. Mint,
 Philadelphia, Pa.,

Sir: I am preparing an article

on Money and Money Making for the most widely circulated Daily paper of Cincinnati, and would be very thankful if you could oblige me with some information which I am unable to find anywhere else. I could not ask it if I supposed the information was difficult of access.

I would be glad to know:

1. How many varieties of legal American coins have been issued and circulated in this country?
2. What were the first coins legalized under our Government?
3. How many kinds of coins have you in your cabinet, and how many coins of each variety?
4. How many and what variety of medals?
5. What are the dates and place of coinage of some of your most antiquated?
6. What is the total amount of money coined by the Government since its organization?

You would confer a great personal favor upon me, and I think one of greater importance upon the public, by giving replies to these questions; and if your replies to (1) (3) (4) and (6) could be tabularly stated, it

would peculiarly facilitate the preparation
of the proposed article.

I could refer you to Col. Geo. W. Forney, and
Col. Tho. Fitzgould, both of whom know
me personally, and for both of whose
journals, the ^{Philadelphia} Press, and Chronicle at Washington,
and City Star of your city, I have frequently
contributed.

Very truly yours,

J. Q. Thompson -
[Journalist.]

(P.O. Box 157)

— P.S. — Reply would reach me if sent
here, when I am temporarily sojourning.
I hope, however, to be in Philadelphia
before many days.

U. S. Assay Office.

New York May 15th 1841

Thos C. Acton Esq.
Superintendent

Dear Sir

The main point to which the Director of the Mint calls our attention in his letter of 10th inst., is that sundry deposits of Silver, received here and transmitted to the Mint for Coin, have proved to be unsuitable for Coinage without being first subjected to a refining or toughening operation, for which the Mint receives no Compensation.

As this should be remedied promptly, please ask what Charge per ounce would cover the Cost of said toughening, and we will make such Charge to the Depositor, and allow it to the Mint when the Metal is forwarded there without being treated here.

If we could have the deposits that have proved troublesome designated by their Numbers, it would probably help our Assay Department in determining like deposits in the future - Any suggestions that would help us on this latter point will be acceptable, for we earnestly desire to avoid giving them any trouble.

One of our large depositors has asked us to suggest that if the Charge should be at all heavy (and possibly with any Charge), the metal hitherto deposited may be sent direct to Europe instead of to the Mint.

I should be glad to know if any of the Melts that have been refined in this department (marked "Fine Silver" and "Special") have proved refractory.

Respectfully Yours
And^r Mason
Melts Refiner

United States Assay Office
New York May 15 1871.

Sir:

I send enclosed a copy of a communication addressed to me by our *Mellin & Refiner* in relation to the subject-matter of your letter of the 10th inst., & would respectfully ask your attention to the requests & suggestions contained therein.

In regard to this, & all other points of difference which may arise between the Officers of the Mint & Assay Office, I have but one desire, which I am sure is fully shared by my fellow-officers, viz. that they should be discussed in a friendly spirit, & decided, as far as possible, for the public good.

Very Respectfully,

Yours Obedt. Servant,
Thos. C. Victor
Superintendent.

Hon. James Pollock.
Director of the Mint Phil^a.

Hon James Pollock
Director of U. S. Mint.

Dear Sir

You will oblige me
by informing me whether
any report or decision has
been made upon the trial
of the Miller process; and
if any has been made,
by sending me a copy of
it.

When Dr. Miller left
this country in last March
he expected to revisit it
on his way to Australia,
but he has since written
to me that circumstances

rendered it expedient for
him to return to Melbourne
directly from England.

Before leaving this country
Dr. Müller left with me
a full power of attorney
authorizing me to act in
his place in all matters
relating to his invention and
patent.

Yours respectfully

C. F. Fenwick
att'y for F. B. Müller

I have been preparing, and shall present to
you at the beginning of next week a Report
on Müller's Process, as tried by us. J. C. Booth

COMMERCIAL NATIONAL BANK,

Petersburg, Va. May 9 1871.Director Mint & State Mints
Philadelphia

Sir, On the 28 April last I sent you
by express a package of coin, about 2125 of
Silver & 375 of Gold to be converted into its
value in Gold.

As I have not heard anything about
it since shipping, would thank you to
inform me if the package has been received
by you and when I may look for returns.
It belongs to an old colored man who
is very importunate in his inquiries.

Respectfully

C. R. Bishop

He wants Gold Draft for C13
Silver & Gold -

I have written to Mr Bishop that
the Mint does not give Drafts or sell
Coin for Currency - & that the Silver
would be paid in Silver not Gold -
I wait his answer

5
Rec^d. May 3/71

Boston. 1 May,
1871.

Dear Gov. Pollock,

Your obliging favor
of the 18th ult^o was
only welcomed. I have
delayed replying to it,
until I could commu-
-nicate with Mr. Geo.
Peabody Russell, the
nephew of Mr. P., & one
of his Executors & heirs.
He writes me, within
a day or two, that "in
reply to the reimburse-
-ment of the expense to

the Government, I can
only ^{say} that it seems to
me altogether probable
that the proceeds would
amount to much more
than the sum named."

He adds that he
expects to be in Phila-
delphia within a week
or two, & that he will
see Mr. Macalester,
& if no decision has
been made, will call
upon Lee.

If one could know
the cost of the medals,
in silver or bronze, it

would not be difficult,
I think, to get a sub-
scription for enough of
them to reimburse
the cost of the die.

But Mr. Russell &
Mr. Leachester will
be the safest Coun-
sellors, & I will have
a conference with
them on the subject.

Should it be deter-
mined to proceed, I will
endeavor to find a statu-
factory side face.

Ever sincerely,

Wm. J. Pollock, R. D. Michroff

Hon Robt. C. Winthrop

*To be Delivered
1/2 \$5.85*

Freight

Charges

NEW YORK TO PHILADELPHIA.

Shipped in apparent good order and well-conditioned, by

on board the *REGULAT* Steamship, *Regulator* or any other Steamship of the LORILLARD STEAMSHIP COMPANY, now lying in the port of NEW YORK, and bound for PHILADELPHIA, (with liberty to call at any Port or Ports, for whatever purpose, to sail with or without Pilots, and to tow or assist vessels in all situations.) To say:

*Eight Boxes (8) Pennies
Boxes to Contain Fourteen Shredded & Lightly Diced*

being marked and numbered as per margin, to be conveyed unto the aforesaid Port of PHILADELPHIA, in like good order and condition, (the act of God, the country's enemies, fire at sea or in port, accidents to or from machinery, boilers or steam, restraint of governments, pirates, robbers, thieves, collisions at sea or in port, and all and every danger of the seas, rivers, and steam navigation, of whatever nature or kind soever excepted,) and neither the ship nor the owners thereof being liable for loss from any of the causes above excepted, and to be there delivered within reach of the Steam-

ship's tackle, unto *W L Elliot* or to his or their assigns, upon the payment by him or them of Steamship freight at *50¢ per Box* and charges in the currency of the United States, as entered in the margin hereof, with average accustomed. WEIGHTS, CONTENTS, AND VALUE UNKNOWN.

It is expressly stipulated that the articles named in this Bill of Lading shall be at the risk of the owner, shipper or consignee thereof as soon as delivered from the tackle of the Steamer in the aforesaid port of Philadelphia, and they shall be received by the consignee thereof, package by package, as so delivered; and if not taken away without delay, they may (at the option of the steamer's agent) be sent to store, permitted to lay where landed, or returned to the port of shipment, at the expense and risk of the aforesaid owner, shipper or consignee.

And it is further expressly stipulated, that in case any claim shall arise against the Steamer or the owners thereof for any loss or damage accruing to the above merchandise while on the voyage from New York to Philadelphia, such claim (in all cases to be based upon the value of the articles at the port of shipment upon the date of shipment) shall be preferred at the office of the Agent for the Steamer in Philadelphia, before the merchandise shall have been delivered. And in case such claim, whatever it may be, shall not be preferred within the time and at the place designated, such loss or damage shall be deemed to be waived, and the Steamer and the owners thereof shall be discharged therefrom.

And it is further expressly stipulated, that the Steamer and the owners thereof shall not be liable for loss or damage from leakage, rust, heat, leakage, cooerage, or natural decay of goods, or damage to the packages from the said causes, or from any other exposure to weather; and that the Steamer and the owners thereof shall not be responsible for Gold, Silver, Precious Stones or Metals, Jewelry, nor treasure of any kind, unless Bills of Lading in which the value of the articles is stated, are signed therefor.

It is also hereby agreed and understood by the Shipper or Shippers, that all Goods signed for ON DECK are at OWNERS' RISK ONLY.

In Witness whereof, the Agent of said Steamship hath signed all of this tenor and date, one whereof being accomplished, the others to stand void.

Dated at NEW YORK, this

29

day of

April

1874.

For the Agent,

John F. Ohl

P. O. Norwich N. Y.
April 28th 1871

Hon Geo B. Boutwell
Secy of the Treasury
Sir

I have the honor respectfully
to ask on what basis of count, copper, nickel
and bronze cents are redeemable by Act of
March 3, 1871 as per circular April 12, 1871.

We have sent two lots of nickel cents to the
Mint at Philadelphia on which they have
discounted about 20 per cent from count value
allowing but \$1. per lb and 2 per cent off payable
in nickel 5 cent pieces.

Will redemption under the last Act
require a like discount

Respectfully
(Signed) Geo M. Gillson, P. M.
per C. B. Burnett ~~Act~~

G. M. Tilton P.M.
Norwich, N.Y.

Dear Sir-

Will
you please permit me, the
price of this Gold Ring I
want to get most I can for it,
as it belongs to a poor Soldier's
Widow, and every dollar she
saves,

can get now, will help
along, —

Yours Respectfully

B. B. Halsted,

This ring is composed of
inferior gold inside, and
silver outside, with solder.
It is of so little value that
we can hardly state it; say
25 to 50 cents. It had better
be returned to Mr. Halsted.

Sir

Can you tell me in what year the regular coinage of the United States was begun. by some it is said to be in 1787, while others say it was begun in 1793. also were there 2 copper cents coined in 1857 one with a large date, the other with a small date, and which of the US coppers are the hardest to be obtained

I am respectfully
yours

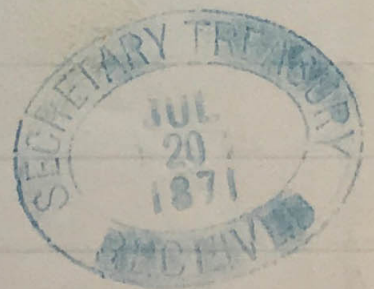

J. M. Aikin.

Pastry Bread, Cake and Pastry Bakers,
AND DEALERS IN ALL KINDS OF
Crackers, Pilot and Ship Bread,
251 & 253 PURCHASE STREET,

New Bedford, Mass., July 15, 1871

Sir:

Yours of 14th inst, stating that the 3^d Silver coin sent by us, in last lot of Copper & Nickel coin, was not redeemable, is received, and in reply will say that if all base coins were redeemable, the little nasty, mean and worthless bits of silver ought to be, for of all the coin issued by the U. S. Mint, these are the most trifling, and the issue of any kind of a token less than five cents, should be prohibited at once, and all kinds, whether of bronze, nickel, silver or copper, should be called in at once.

You may send the nuisances back by Express, send a five dollar bill for them, or melt them up, and send me a coin, or coins large enough to balance.

If they were heavy enough to drown a cat with, I would take them for that purpose, and all similar coin I receive in the future, shall be never more redeemed.

Very Respectfully Yours,
Geo. Eyster Esq. Treas.

The Director of U. S. Mint Phila.

Dear Sir,

I beg leave most respectfully to ask if any one has a right to make coin in imitation of the Quarter dollar and half dollar of California? There is a party in this place who make thousands of them, who are in the same line of business of myself and as I have all the facilities for making them I would like to do so, if it was honorable and right. Their coin is 14K fine, and the quarter weighs four (4) grains; is colored and struck in bright dies, and look just like the Cal. coin. If you will make it convenient to make early reply, you will confer a great favor.

Your Obt. Servt.,

To the President of the mint at Phila

Dear sir

I sent by
Express to you a piece of metal or silver with five dollars requesting a
return of the value accompanying the U. S. S. but I have only received a
letter saying that it might be sulphate or tin or some kind of metal
I really believe the letter I received is a forged letter and I want to
hear from you at the earliest period to know whether you received the
metal or not or when you wrote the letter I have just mentioned if you had
sent me a return for any metal or a seal I wish to know how you sent
it whether by Express or other wise. I am sure that the metal I sent you was
silver for I have been running it out in considerable quantities have had it
thoroughly tried by the best of chemists and pronounced the very best of
silver and I only want the U. S. Seal to it and I am sure they are
bound to grant it

Respectfully yours Elbridge Hannum

Rec'd Aug 8/71

Laurel, Md.,
August 5th 1871.

Sir;

Will you be so
good as to forward
to me one of your latest
Lists of the values of
foreign gold & silver
coins in U. S. currency?

Very respy.
Yours truly,
Horace P. Tuttle.

Hon. Jas. Pollock,
Director of U. S. Mint, Phil.

Paymaster,
U. S. A.

Washington, D. C.,

August 9th 1871.

Sir;

I have the honor to acknowledge
the receipt of your Statement of
Foreign Gold and Silver Coins.

I am compiling a Pay
Table for Paymasters of the
U.S. Navy, and I most respectfully
request an answer to the following
questions. - 1st. If foreign gold
coins be presented at the U.S. Mint
will the "Value after Deduction"
as given the fourth column of
the "Statement" etc be paid for
them in U.S. Gold Coin, ^{If presented at the U.S. Mint}? 2^d. If
foreign silver coins be presented,

as above, will their equivalent
value be in American silver
be given, as stated in the value
of foreign silver coins?

I make this request
as many Paymasters of the Navy in returning
from foreign countries have frequently
large sums in foreign coins, and as they
are not receivable at the U.S. Treasury
nor at the Sub-Treasuries, we are
sometimes subject to losses of
great extent.

I am, Sir

Very respectfully,
Your Obedt. Servt.

Henry J. Wilson.

"The Sheffield Smelting Co."
per Henry J. Wilson
Sheffield, Eng.
England

Edwin N. Kent's
apparatus for refining
sweeps.

Rec Sept 4/71

Mint of the United States,

MELTING AND REFINING DEPARTMENT.

Philadelphia, 14 Sept. 1871

We still employ Mr Kent's Separator, & Amalgamator, but it is very liable to wear, & does not usually reduce the Sweep to less than 10 cents per lb. a-d-p. in value. We do not think that it is very economical. in any respect, in wear & tear, — in reducing to low value, — or in waste of mercury in amalgamator.

I have no doubt that a letter would reach Mr Edward N. Kent New York, direct from Sheffield.

J. C. Booth
(M. & R.)

Please address all Letters, &c.
The Sheffield Smelting Co.
Sheffield.

England,
Sheffield 21 Aug. 1871.

To the Director of the Mint of
the United States,
Sir,

From a pamphlet published in 1855 it appears that certain apparatus invented by Mr. Edward A. Rent, Mather & Refiner in the United States Assay Office, New York, was about to be introduced into the Mint for the purpose of washing & separating the gold from the "sweep" produced in that establishment.

We venture to request the favor of being informed if that apparatus is now so employed; — if it is found successful & economical; — & if you can place us in communication with the

Mint of the United States.

Philadelphia, August 29 1871

Dear Sir,

At your desire, I have examined and assayed a gold coin which was sent in a letter from Albert N. Horton Esq., U.S. Attorney of Kansas.

The coin bore on the obverse a female head, with thirteen stars, and date 1871.

On the reverse a wreath, with the legend Half Dollar Cal.

The weight was seven grains & six tenths (7.6), and the fineness five hundred & twenty parts in a thousand. (520.)

Consequent value, just seventeen cents (17) gold.

~~I will merely add the legal standards of the dollar, the smallest gold coin issued by law; weight $25\frac{8}{10}$ grains, fineness 900 thousandths, or nine tenths fine, "which is the uniform fineness of all the U.S. gold and silver coins of the present issue."~~
Very respectfully

Hon. James Pollock

Director &c. &c.

J. R. Eckfeldt
Assayn

(over)

The coin being barely enough to make
assay, has of course been wholly used.

1770

Dear Sir,

At your desire, I have examined
and assayed a gold coin which was sent in a
letter from Messrs. H. & Co. Boston.

The coin bore on the obverse a female head, with
the inscription, and date 1871.

On the reverse a wreath, with the legend
Half Dollar Cal.

The weight was seven grains & six tenths
(7.6), and the fineness five hundred & twenty
parts in a thousand (520).

Consequent value, just seven tenths (7) gold.
I will merely add the fact that
of the dollar, the smallest gold coin issued
by law; weight $25\frac{1}{10}$ grains, fineness 900 thousand.

otion declared carried.
The following resolution was offered by Mr. McWhirt:

Resolved, That the County Board hereby withdraw the proposition already submitted subscribing \$150, in bonds to the capital stock of C., S. W. & P. R. R., and donating and disposing of the stock of county in the Platte City and Fort Des Moines railroad to O., S. W. & P. R. R.

hereupon the following preamble and resolutions were offered as amendment to said resolution by Hannon:

HEREAS, The proposition of the Kansas Central Railway Co. is the one which has been formally adopted by the Board of corporations, and

HEREAS, the proposition to subscribe \$150,000 of bonds of Leavenworth county to the capital stock of the Chicago, Southwestern & Pacific Railway Co., and to dispose of the stock of said county in the Platte City and Fort Des Moines Railroad, not been accepted by said C., S. & P. R. R. Co., and

HEREAS, The Leavenworth & Kansas Southern R. R. Co. have declined to accept the proposition submitted by the County Board to the people for subscribing \$150,000 of county bonds to the capital stock of said Company, and have signified intention of said Company not to accept the said bonds with the conditions attached to the acceptance thereof as mentioned in the proposition submitted to the people, therefore be it

Resolved, That there is now no proposition before the electors of Leavenworth county to be voted on the special election, to be held August 15th, 1871, except the proposition of the Kansas Central Railway Company, and that the polls be opened on that day for the electors of Leavenworth county to vote only on the acceptance or rejection of the proposition of said Kansas Central Railway Company.

Resolved, That the Sheriff be instructed to publish these resolutions in the preamble thereto, in all papers publishing the notice of action of the Board, submitting three propositions hitherto submitted, and that he cause the same to be published immediately under notice submitting said three propositions and along with them, and that said Sheriff also publish a proclamation supplemental to the already published by him, informing the electors of Leavenworth county that there is before them but one proposition on which they are to vote at said special election, to be held on said 15th day of August, 1871, to wit: the proposition of the Kansas Central Railway Company, and that polls will be opened on that day for voting for and against said proposition of said Kansas Central Railway Company, and for or against that proposition only.

On the adoption of which amendment, the ayes and noes were called, and all Commissioners present voting in the affirmative.

Said amendment was declared adopted.

The following resolutions were presented, and, on motion, adopted: By Mr. Spencer:

Resolved, That the County Clerk and he is hereby, instructed to prepare ballots for the electors of Leavenworth county to vote on the proposition of the Kansas Central Railway Company, only at the

were examined and especially call your attention to the same as fully stating the condition of the case.

Now we have ascertained that other parties here are in the same business and I desire you to examine the coin enclosed, the act of June 8th 1864 and the opinion of the U. S. Commissioner herewith sent and then to inform me if you think the parties are guilty under said act of June 8th 1864 & if I should push the prosecutions begun and commence others of like character. The country is being flooded with these coins and many persons take them on the supposition that they are Government coins and are good gold. Some of them are sold at a premium. They are about one half gold, and the business is very

Office of U. S. Attorney of Kansas.

Atchison, Kansas, Aug. 23d 1871.

Sir:

I have the honor to enclose to you herewith a gold coin "of original design" of the denomination of half a dollar, taken with others, under my orders, from the possession of Messrs Heushfield & Mitchell of Leavenworth Kansas, a few days since. I had these parties arrested for violating the act of June 8th 1864. Page 121. Stat. 13. And upon examination before U. S. Commissioner Lecount on the 11th inst the parties were required to answer before the U. S. Circuit Court at its ensuing term in this District. It has been ascertained that Heushfield & Mitchell have made upwards of 30,000 of these coins during the past four months. I also send you the opinion of the Commissioner before whom the defendants

Gentlemen.

We have just received from Dr. H. R. Linderman, late Director of the Mint, your favor of the 24th August enclosing Draft for Three Hundred (300) Dollars for 1 + 5% coin.

In explanation of this matter it is due to all parties concerned to state that in consequence of your letter having been addressed to an Ex-Director of the Mint, the same has been retained by his family here, under the supposition that it was of a private character, until his return from Europe. As so long a time has elapsed since you mailed it, will you please inform me as to what disposition you will have us make of it.

Very Respectfully Yours

Treasury Department,

REGISTER'S OFFICE,

Washington, D. C., Aug 28th, 1871.

Sir:

I have respectfully to request that you will, at your earliest convenience after the 30th day of September next, transmit to this office, to be used in the compilation of the Biennial Register, a list of the officers, agents, and clerks employed in your office on that day; stating where each was employed, the State or country where born, the State or Territory from which appointed, and the amount of compensation allowed—including the full amount received by each per annum, whether from salary, fees, or commissions.

For the purpose of securing uniformity and accuracy, you are requested to use this or a similar blank, attaching additional sheets when necessary.

Very respectfully,

Your obedient servant,

John Allison

Rec'd Nov. 3/71

U.S. Army Office Boise City
Idaho Territory
Oct. 28th 1871

Sir:

Form of the 28th ult. Also of the 4th inst
and enclosures have been received

The goods shipped early in September
should have been here. But I am informed
by the Consignee at Kellown that they did
not leave that point until the 12th inst. they
will arrive here by Mule Team in about
one week from this date.

Those which were shipped by you on the
4th inst have not been heard from and I
am somewhat anxious lest they were in
Chicago at the time of the fire. The way bills
should show whether they were to come via
Chicago or St. Louis in the latter event they
will be safe if not the probabilities are
they were in Chicago at the fatal time

I am much obliged for the sketch you
forwarded Any suggestions which your
experience may dictate will be thankfully
acknowledged

during the mild season of the year.

It gives me pleasure to state that our
quartz is being gradually developed and the
later discoveries are very promising - both in
gold and silver.

In the work of stimulating this branch of
mining I hope to be able to make this office
an efficient agent. Parties have within fortnight
gone from here to Salt Lake City some 400
miles in order to get assays made of their
ores.

I enclose a statement of account for
Salary for your approval and transmission
to the Treasury Department.

I do not very well know what the usage
of the Department is as to the commencement
of the compensation. I started for my post
within a week after my appointment which was
made on the 28th of July. But whether I will be
allowed for the time I know not. I presume
the question has been determined in other cases
and I leave the amount blank for you to fill
according to usage.

Yours Respectfully

Department at Washington and waited for some time that I found you had been informed that there was any necessity for moving in the matter of providing the Office with the necessary supplies.

The Clerk Mr Hughes proceeded to this place having started immediately on receiving notice of his appointment and has been here ever since.

The Agent has not yet arrived and I fear from the tone of a letter recently received that he may decline. However I forwarded a bond to be filled, and as you will know whether that has been done by him you will know whether he is coming or not.

In the contingency of a vacancy — if the present instructions don't me do not provide for it — what course shall I pursue? If there should be work shall I employ some competent person pro tem to do it?

Every thing is in readiness waiting only the arrival of the supplies — It is now so late in the season that until the coming spring but little work comparatively will be done as the Bullion in this country comes in large part yet from places which are only worked

U.S. Army Office Boise City

Oct 25th 1871

Sir.

Yours of the 28^{ult}. advising me of the purchase and shipment of material and supplies for the use of this office was received.

In reply to that portion of your letter referring to the appointment of the officers for this institution, I have to say that they were appointed on the 28th of July last.

In obedience to the notice of my appointment I left Washington on the 5th of August following on my way to my post.

I came to Philadelphia and called to see you at the mint, with a view of receiving such suggestions about the management of the business as you might feel willing to make. But you were temporarily absent at Huntington. I was informed, and I was compelled to return without seeing you.

I left there on the 10th inst. and awaited instructions after arriving here for some time from the Treasury Department as to what to do. It was only after I had written to the

Director U.S. Mint

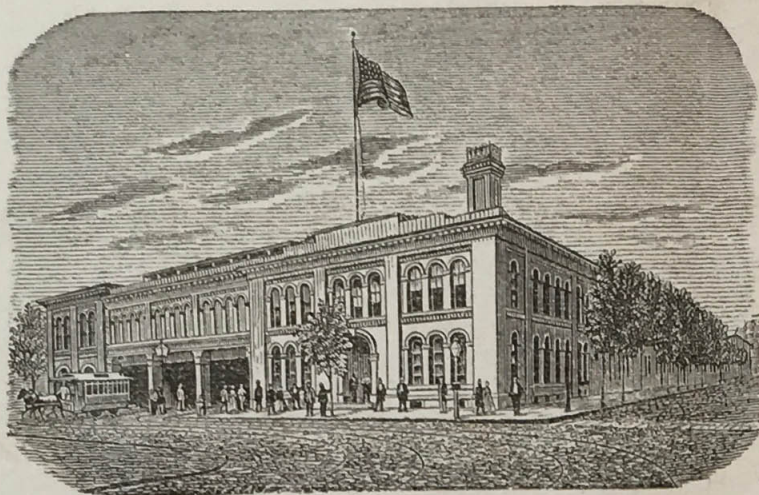

Sir

Enclosed please find duplicate memorandum No 1034 of Jewels Gold Bars, deposited by H. Muhl & Son on 29th September 1871. Weighing before melting $41\frac{66}{100}$ ounces after melting $23\frac{82}{100}$ ounces. The Bars were picked on the surface and when cut found to be very bare, and to be made suitable for the operations of the Mint, were twice melted with nitre in order to refine, and then melted down with borax, the grains washed and the result is as above.

After receiving H. Muhl & Son's complaint at this office, they not being satisfied with the loss, a further investigation was made with no other result.

Very Respectfully

Peas - Oct: 6th / 71.

My dear Sir,

On the 2^d inst. I addressed a letter to Gen. J. E. Spurr, Treas^r U.S. - informing him of the very fine & choice Collections of Coins, American particularly, which were among the assets of defaulting Paymaster Hodge. - My object in thus writing to him, was, that they had no doubt been confiscated by the Government, in part remuneration for its losses, sustained by this defalcation, and would probably be sold. - As our Mint Collection, in the American series, is very imperfect, and inasmuch so, as not to be appreciated by a second rate Numismatist! -

I hope that arrangements might be made to secure it for the purpose of improving the Mint Cabinet, as from my knowledge of the aforesaid Collection, is such, that I can safely state, that there will probably never be another opportunity of purchase. -

With this I send a copy of the letter received by me from Genl. Spurr in answer to mine.

I desire very much to enlist your
energy in this Enterprise, - and hope that you
will give it your early attention by an
application to the Secy. of the Treasury as
advised by Genl. Skinner Major U.S. -

Very Respectfully
Yours,

My dear Sir,

Your letter of the 2^d instant has been received. My gratification would equal yours, could the Collection of Coins, of which you speak, be secured to the "Mint Cabinet."— I cannot however see any way that I can even help to bring about the object in view.— Perhaps the Secretary of the Treasury has the authority to make the purchase, on behalf of the United States. If so, it would be well for the Director of the Mint, to make the application for such purchase to the Secretary direct.—

Very truly Yours,
A. E. Spinnaker

My Dear Sir

You may have forgotten me, but - I shall never forget you as ~~my~~ our distinguished guest at the great banquet of the United States Agricultural Society in 1856, nor those burning words of patriotism and eloquence which flowed from your tongue on that occasion. I still live, and am now in my twenty third year of official life as Pres^t of the American Pomological Society which held its last session a few weeks since in Richmond Va. an institution which has done and is doing a vast amount of good both in enriching our country and adding to the comforts & happiness of Society. We are poor having no funds except those received from membership which are expended in full

P.L. Forward Copy of our
Transactions to the

for the publication of our Trans-
actions.

At the last session, a Committee
was appointed to procure a
die for a suitable medal, ~~for~~
~~the~~ We desire one of, about
the size of the N. S. Agricultural
Society, or the Com. Perry
medal, both of which you
have. I presume in your
Office, and I write to ascertain
whether the Government might
properly, under your direction,
have a die made for our
National Society without charge,
or, if a charge must be made
whether this might be a nominal
sum of \$1 or \$200 hundred dollars
at the most. If necessary I ~~can~~
write Mr. Boutwell on the
subject. It is proposed to have
the likeness, (head) of the Pres^t of
the Soc^y on one side & the name
of the Soc^y on the other.
Will you please favor me with
an early answer
Yours with great esteem

Dear Sir

Your favor of 29th ult
(for which I am much
obliged) was duly received.

In reply to your inquiry
as to the terms upon which
an arrangement may be
made for the use of Prof.
Miller's Process in the
Mints and Assay Offices
of the United States, I
may say that no precise
conclusion has been reached.
Prof. Miller's idea was that

the Government should pay him a royalty for the quantity of alloy refined, and for the quantity of gold toughened by the use of the process; and that the amount of this royalty should be an equitable portion of the saving accruing to the Government upon the two operations as performed by his process when compared with previous modes of producing the same results.

Provided, however, that the arrangement be such that Prof Miller will receive an equitable compensation for

the use of his invention, the form or manner in which that compensation is made is a matter of secondary importance; and on this point the views of the Officers of the Mint would have great weight with Prof. Miller, because as they are wholly disinterested, and have the best means of forming a correct estimate of the saving effected both in refining and toughening, they are well fitted to make an equitable division of the saving between the Government on the one

part and the patentee on
the other.

Respectfully Ellob. Servs.

1 at	2.000	↪		
1 at	1.900	↪		
2 at \$1800	3.600	↪		
Total			28.000	↪
II. For Wages of Workmen			40.000	↪
III. For Incidental & Contingent Expenses and Repairs			100.000	↪
Total			\$ 168.000	↪
United States Assay Office New York. Sept. 27, 1869				

New York Assay Office
Estimate of Appro-
priations 1871

Recapitulation

The amount required to be appropriated, therefore, for the support of this Office, will be

I For Salaries of Officers and Clerks \$ 28.000.-

II. For Wages of Workmen 40.000.-

III. For Incidental and Contingent Expenses and Repairs 100.000.-

Total \$ 168.000.-

Very Respectfully

Your obt Servt

(Signed) Geo F Dunning

Superintendent

Hon James Tollock
Director of the Mint

Brought forward \$ 50.000.- \$ 68.000.-

No increase of last appropriation
would now be necessary under this
head, But inasmuch as the Approp-
-riation Bill of July 20. 1868.

[U.S. Statutes, Vol 15, p 107,] con-
tains the proviso: "That hereafter
all the 'Available profits' of the U.S.
Mint and Branches shall be covered
into the Treasury, to be expended only
by Specific Appropriation," - it becomes
necessary for me to ask that there be
added to the amount appropriated for
the current year, for Indidental and
Contingent Expenses & Repairs, at least \$ 50.000.-

Thus making an aggregate of 100.000 -
for this object, which exceeds,
by \$ 2500.- only, the actual expenditures
of this Office for the fiscal year ending
on the 30th of June last, under this head
Total Appropriation required \$ 168.000.-

Brought forward \$ 28.000 ~

Necessary to be appropriated to cover existing Salaries, as fixed by law, and presented in detail in the accompanying Schedule:

II For Wages of Workmen, at existing rates of compensation, we shall require the same amount as was appropriated for the current year, viz;

\$ 40.000 ~

III. For Incidental and Contingent Expenses and Repairs, there was appropriated for the current year \$ 50.000 ~
"in addition to available balance of former Appropriations"

This "Available balance" consisted of the charges (levied upon our deposits of bullion) which prior to July 1868, were by Law Available for the Incidental and Contingent Expenses of the Office. If these charges; or "profits" were still Available for this purpose

Carried forward \$ 50.000 ~ \$ 68.000 ~

United States Assay Office
New York, Sept 27. 1869

Sir

I respectfully submit the enclosed Schedule (A) of Appropriations required for the support of this Office, for the fiscal year ending June 30th 1871. with the following Explanations.

I For Salaries of Officers and Clerks, there was Appropriated for the current fiscal year as also for the preceding year

\$ 25.700 ~

By Authority of the Secretary of the Treasury, under date of Feby 13, 1867, the Salary of the Bar-Clerk was increased from (\$1600 to \$1800)

200 ~

Under date of Jan'y 10. 1868, the Pay-Clerk was transferred from the Assistant Treasurer's Office, to the Assay Office, at a Salary of

1.900 ~

And under date of Oct 3, 1868, the Salary of the Bullion Clerk was increased from (\$1800 to \$2000)

200 ~

Making an aggregate of

\$ 28.000 ~

Respt^l Sir

It has long been a question of dispute. as to the existence of a cent of the coinage of the United States for the year 1808. bearing the same head as the cent of 1807. - I have had in my possession for the past four years a cent. somewhat worn. but the date still visible. which some have pronounced of the year 1808. others differ. I send it to you for examination. trusting that it may be of that date and would request that you will send me word of your decision in the matter. I have also in my possession quite a number and variety of New Jersey and other Colonial coins. which I have collected from time to time nearly all of which are mistaken. and are

quite^a curiosity in their way. Some of the
Auctu Bonnac. being struck over and on the
same pieces of the Nova Beasera. and also
some on the Massachusetts Bents, &c. If you
should desire them for the Mint collection
I will remit. Please inform me per mail
what the price of the Prop. Silver set for
this year is. as I am desirous of sending for
one. Trusting that you will reply at as early
a day as convenient.

Memorandum

+ Henry F. Geyer

To the Director
of the U. S. Mint
Philadelphia Penn^a

P. S. Assist. to Mechanicburg, Cum Co. Penn^a

Coin-collectors find three
varieties of cents of 1808 -

One with 12 stars

One with 13 stars

+ One with 8 struck over 7,
in the date.

This piece is too much worn
to be assigned to either sort.
most probably the latter,

Henry F. Geyer

Thos C. Acton,
Superintendent.

Estimates of Appropriation
for 1872-3.

1 Enclosure.

Rec^d Sept 14/71

action has been affirmed by the Attorney-General, I have called attention to the fact in a note appended to the schedule of estimates, in the hope that the full amt. may be appropriated for the next fiscal year. I trust, also, that the proper recommendation may be made to Congress, so that the \$1500 due the Deputy-Treasurer for the present-fiscal year may be provided for in the Deficiency Appropriation bill for 1871-2.

I have also withdrawn the estimate for salary of Asst. Attorney, there being no present necessity for the usual appropriation for that office.

Otherwise the estimates are for the same amounts as the appropriations finally made, on my recommendation,

United States Assay Office,

New York, Sept 14, 1871.

Sir:

I respectfully submit the enclosed schedule of Appropriations required for the support of this Office for the fiscal year ending June 30, 1873.

Owing to the high cost of living in New York, & the great responsibility of their positions, I have deemed it but ^{just} to recommend an increase in the salaries of the Assayer & Melter & Refiner.

Under date of Nov. 6, 1869, the Secretary of the Treasury fixed the compensation of the Deputy Treasurer at \$4500 per annum. In the appropriation for the current year, however, but \$3000 was appropriated. But inasmuch as the legality of the Secretary's

Wellsboro Tioga Co. Pa. Sept 11-1871

U. S. Mint, Philadelphia - Pa -

Gentlemen

Enclosed I send you
six specimens of minerals, or Ore -
five of them I discovered in Pa & one ^(No 5)
in Vt. No 1 in Tioga Co. at one place,
Please give me a full description of these
kinds, quality, & quantity, of each, & amount,
or, valuation of each mineral, & quantity
of each mineral - per hundred lbs. or per Ton.
Nos 2-3 & 4 are from one place in Tioga Co. Pa.
Nos 2 & 3 - I want a full statement of different kinds,
quantity, quality, & valuation of each, so that
I can know whether they will pay for working.
No 4 there is a small quantity of bright
sparkling Ore, please state what kind, or
kinds of minerals, ^(are in it) - No 6 - Please give a full
Essa. Please report to me of the above, as soon as
convenient. Respectfully Yours. Caleb S. Graves.
Wellsboro Tioga Co. Pa -

Caleb S. Graves. Wellsboro
Pa
Sep. 11/71

sends 6 specimens of ore for
examination

Ans'd. Sep. 15/71. J.C.S.

I hope you will give me an Essa as near
as you can, of the six diferant minerals,
thay are smal parcels, but if there is
a prospect of these paying to work, I
will indeavour to make a full investigation.
Please inform me how, & in what way, I
can have the diferant Minerals Analised,
or worked.

Those I sent you a year ago, were
for another man, - he discovered them, &
he thought that thay were valuable, - I
thought thay were not, as you stated in
your reply.

Respectfully Yours

ADAMS EXPRESS COMPANY,

GREAT EASTERN WESTERN AND SOUTHERN EXPRESS FORWARDERS.

No. 1. [DOMESTIC BILL OF LADING.]

RECEIVED of

VALUE

For which this Company charges

Marked

Which it is mutually agreed is to be forwarded to our Agency nearest or most convenient to destination only, and there delivered to other parties to complete the transportation.

It is part of the consideration of this contract, and it is agreed, that the said Express Company are Forwarders Only, and are not to be held liable or responsible for any loss or damage to said property while being conveyed by the Carriers to whom the same may be by said Express Company entrusted, or arising from the dangers of Railroads, Ocean or River Navigation, Steam, Fire in Stores, Depots, or in Transit, Leakage, Breakage, or from any cause whatever, unless, in every case, the same be proved to have occurred from the fraud or gross negligence of said Express Company or their servants; nor, in any event, shall the holder hereof demand beyond the sum of Fifty Dollars, at which the article forwarded is hereby valued, unless otherwise herein expressed, or unless specially insured by them, and so specified in this receipt, which insurance shall constitute the limit of the liability of the Adams Express Company. And if the same is entrusted or delivered to any other Express Company or Agent (which said Adams Express Company are hereby authorized to do,) such Company or person so selected shall be regarded exclusively as the agent of the shipper or owner, and as such alone liable, and the Adams Express Company shall not be, in any event, responsible for the negligence or non-performance of any such Company or person; and the shipper and owner hereby severally agree that all the stipulations and conditions in this receipt contained, shall extend to and inure to the benefit of each and every Company or person to whom the Adams Express Company may entrust or deliver the above described property for transportation, and shall define and limit the liability thereof of such other Company or person. In no event shall the Adams Express Company be liable for any loss or damage, unless the claim therefor shall be presented to them in writing at this office, within thirty days after this date, in a statement to which this receipt shall be annexed. All articles of Glass, or contained in Glass, or any of a fragile nature, will be taken at Shipper's risk only, and the shipper agrees that the Company shall not be held responsible for any injury by breakage or otherwise, nor for damage to goods not properly packed and secured for transportation. It is further agreed, that said Company shall not, in any event, be liable for any loss, damage or detention caused by the acts of God, Civil or Military Authority, or by Rebellion, Piracy, Insurrection or Riot, or the dangers incident to a time of war, or by any riotous or armed assemblage. If any sum of money, besides the charge for transportation, is to be collected from the consignee on delivery of the above-described property, and the same is not paid within thirty days from the date hereof, the shipper agrees that this Company may return said property to him at the expiration of that time, subject to the conditions of this receipt, and that he will pay the charges for transportation both ways, and that the liability of this Company for such property while in its possession for the purpose of making such collection, shall be that of Warehousemen only.

Treasury Department,

REGISTER'S OFFICE,

September 7 1869.

Sir:

I have the honor to request that the usual estimates for the fiscal year ending June 30, 1871, may be prepared at your office, and transmitted to this, as early as convenient, for the purpose of being laid by the Secretary of the Treasury before Congress at the ensuing session. I would invite your particular attention to the 14th section of the act of August 26, 1842, to the section of the act of 17th of June 1844, to the joint resolution of 7th January, 1846, relating to estimates to be laid before Congress, and 8th section of the act of 3d March, 1855.

In the references to the acts authorizing the expenditures of the sums estimated for, you are respectfully requested to refer to Little & Brown's edition of the Laws of the United States.

Very respectfully,

Your obedient servant,

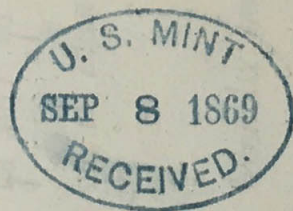

John Allison

Register of the Treasury.

Director U S Mint

Sir!

On the 24th August last we forwarded to the U S Mint, Four Boxes of pennies, containing \$1040.00. Expecting as usual to receive a draft in the course of half days - up to the present time we have not received any such draft, it being now half days over the usual time, and we therefore respectfully request You, to inform us, by return of mail, if said four boxes of pennies have been received at the Mint, and what the cause of the delay is, ^{not} sending the draft -

Yours Truly

For the Company
W. Raveston. Cash

Dear

Mr. understand from the Agent
of Lowell's Machinery Co. that
the Dues were delivered as
the 25th

W.P.

Not counted, accumulation
of coin and suspension of
operation cause delay
